

Briquet 611.

The tracing of an Angel watermark is found in Udine, Biblioteca Civica "Vincenzo Joppi", Archivio Comunale Antico, *Annales*, volume 32, gathering 8, ff. 265-285, [285 bis]; ff. 277-285 blank. The texts in the gathering are dated between 24 June 1464 (f. 265r) and 27 September of the same year (f. 273v). It contains a total of 11 sheets, of which nine contain the twin Anvil in circle watermarks **Briquet 5959**. The two innermost sheets have a singleton Angel L (MsR) watermark **Briquet 611**.

The distribution of the watermarks in the gathering is as follows.

Leaf	Wmk	Leaf	Wmk
265	L Anvil in circle	[285 bis]	stub
266	L Anvil in circle	285	
267		284	LL Anvil in circle
268	LL Anvil in circle	283	
269	L Anvil in circle	282	
270	LL Anvil in circle	281	
271		280	L Anvil in circle
272	L Anvil in circle	279	
273		278	LL Anvil in circle
274	L Angel	277	
275		276	L Angel

Description of the Angel watermark **Briquet 611**.

Description of the mould	L (singleton)
Sheet measurement in mm.	430 x 292 m trimmed
Ratio width/height of sheet	1.47
Position on sheet	Centre of right half (from mould side).
Position on chainlines	Between 3 rd and 4 th chainlines, with wing overlapping 3 rd chainline by 10 mm.
Principal motif and IPH code	Angel Ange Angelo Engel A5/2/3
Direction of watermark.	Looking inwards.
Percentage in total of sheets	100,00%
Difficulty in distinguishing twins	-
Height of watermark in mm	86 mm

Width of watermark in mm	39 mm
Smallest distance between watermark and outer chainline.	25 mm
Smallest distance between watermark and inner chainline.	6 mm
Distance from watermark to top of sheet	103 mm
Distance of watermark to bottom of sheet.	108 mm
Presence of a supplementary chainline.	No.
Distance between chainlines, if regular	35 mm
Number of chainlines in sheet.	12
Presence of tranchefiles.	Seemingly a tranchefile on the very edge in the half opposite the watermark; if so, the tranchefile in the other half may have been trimmed.
Number of wirelines in 20 mm.	Approx. 25
Notes.	Sheet has been trimmed, leaving 15 mm from outer chainline to edge in half without the watermark.

Commentary on the Twin Watermarks.

No comparison possible.
